

| Designation in the test report | Includes e. g. the following genera |
|---|---|
| Micrococcaceae/Dermacoccaceae | Micrococcus spp., Dermacoccus spp., Kocuria spp., Kytococcus spp. |
| Staphylococcus sp. | Staphylococcus spp., Mammaliicoccus spp. |
| Aerobic spore formers | Bacillus spp. incl. nomenclature adjustments, Paenibacillus spp., Brevibacillus spp. |
| Gram-positive rods, catalase negative | Lactobacillus spp. incl. nomenclature adjustments, Weissella spp. |
| Gram-negative rods, oxidase positive | Pseudomonas spp., Brevundimonas spp., Moraxella spp. |
| Gram-negative rods, oxidase negative | Enterobacter spp., Klebsiella spp., Salmonella spp., Escherichia spp. |
| Coryneform bacteria | Corynebacterium spp., Dietzia spp., Microbacterium spp., Nocardia spp., Streptomyces spp. |
| Gram-positive cocci, catalase negative | Streptococcus spp., Enterococcus spp., Lactococcus spp. |
